Bedbug assistance service

VANDU Empowerment's

Bed Bug Assistance Service

Here's how it works:

- 1) YOU book your free consultation
- 2) WE work with you and your exterminator (if you don't have one we can help you find one) to remove all the items from the infested area and either return cleaned or new items (we can do as much or as little as you want in terms of cleaning and new purchases) or discard items that cannot be preserved.

3) YOU or your tenants receive education and support and assistance during this challenging time

4) We provide opportunity for employment ready drug users

We also provide sensitive room clearing services after abandonment, suicide and attempts, unattended death, accidents and injuries, hoarding, distressed properties, filth and where the area may have needles and bio hazard

this service is also available on an ongoing basis to landlords and property managers

Why not review your budgets, maybe there's things your outsourcing to private sector that we could be doing!
