## VANDU Empowerment's

### Community Organizing

Here's how it works:

- 1) **You** have a problem with people using drugs hanging around
- 2) **We** approach the drug dealers and broker a meeting with them to negotiate a peaceful resolution for the community
- 3) **You** have needles and drug debris in your area
- 4) **We** will arrange for employment ready drug users to clean the area

*Why not review your budgets, maybe there's things your outsourcing to private sector that we could be doing!*
